peony

Any design can be printed in the color combination of your choice. I mix all my inks by hand, so I can arrive at just about any color you can imagine. I mix custom ink colors using the Pantone Matching System {PMS} or swatches including paper, paint, fabric, ribbon, cupcakes with colored frosting...anything you can drop in the mail to me. Send me the PMS number or some always welcomed snail mail. I would love to hear your ideas for your color palette, but if you need some ideas please reference the colors above. Please keep in mind these are digital approximations.
